# WELCOME NOTE

**Move from wellness to greatness in your life.**

---

Here at Evolve Telemedicine, our mission is to help people live happier, healthier, more productive lives. We are focused on providing expert, personalized care to patients across the nation through our expert team. Whether you're new to Evolve or have been with us for a while, our commitment is to help you achieve your health and wellness goals, so that you can move from wellness to greatness in your life.

We live and work by the "platinum rule," which means we treat you how you expect to be treated. In fact, many of our team members are also our patients, and they offer personal experience about our treatments along with their expert advice. Finally, we know our team members are the key to our success. We're committed to giving them an extraordinary experience, so that they can give you an extraordinary experience.

We are Evolve proud.

## What We Do

EVOLVE provides concierge-level telemedicine care under the supervision of the nation's best healthcare professionals and top physicians specializing in regenerative medicine. Our team of experts can help you live a happier, healthier life and move from wellness to greatness through Bioidentical Hormone Replacement Therapy.

# Our Expert Team Provides These Services:

## **Men's BHRT**

Personalized approach to restore hormonal balance in men, enhancing vitality and well-being

## **Women's BHRT**

Tailored approach to replenishing & balancing hormones in women, promoting overall wellness and vitality.

## **Peptide Therapy**

Protein molecules to support various bodily functions, promoting healing, rejuvenation, and overall well-being.

## **Menopausal Hormone Therapy**

Alleviates menopausal symptoms and restores hormonal balance in women, improving their quality of life and well-being.

## **Weight Loss**

A holistic approach that focuses on optimizing dietary choices and lifestyle habits to improve overall nutritional well-being.

## **Hair Restoration**

A specialized procedure that aims to address hair loss and promote natural hair growth.

## **Anti-Aging and Skin Care**

Treatments that target signs of aging, such as wrinkles, fine lines, and skin damage.

## **Sexual Wellness**

A holistic approach to promoting and maintaining a healthy and fulfilling sexual life.

## **Muscle Building**

Promote muscle growth, improve physical performance and sculpt the body for enhanced strength and aesthetics.

## **Thyroid Health**

Maintaining optimal thyroid hormone levels, managing thyroid disorders, and supporting metabolic processes

# Meet Our Experts

Since 2015, we've had the honor of helping tens of thousands of people, including professional athletes, celebrities, and influencers, live happier, healthier lives. EVOLVE is the nation's leader in Bioidentical Hormone Replacement and Peptide therapies. Our patients receive personalized, concierge-level telemedicine care to treat hair loss, manage weight, improve sexual wellness, restore cognitive function, and revitalize their overall sense of well-being.

## OUR PROCESS

### 01. Check Your Levels

Provide us with your health history, and we will run a comprehensive lab panel to help you understand your hormones and vitamin levels.

### 02. Talk To Our Care Team

Meet with our expert medical providers and staff over a video call to discuss your lab, panel and health goals so that we can develop your personalized treatment plan

### 03. Receive your personalized treatment

Treatments will arrive at your doorstep within days of meeting with your care team. Our team is always there for you, and will check in to ensure you're making progress.

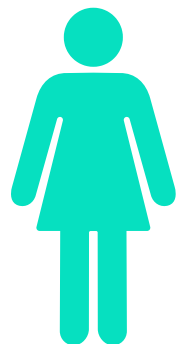

# Our Patients

Our primary focus is on U.S based men and women ages 30 to 65 seeking reliable information and comprehensive care for their hormonal health. Whether our audience is experiencing hormonal imbalances, seeking preventative measures, or simply interested in optimizing their well-being, our services cater to their diverse needs.

# EDUCATE | EMPOWER | EVOLVE

## MAIN GOALS - COLLABORATE WITH YOU!

Evolve Telemedicine is committed to reaching a broad audience by collaborating with digital media platforms and events to educate individuals about the remarkable benefits of telemedicine. Our Medical Doctors and Experts aim to raise awareness about the importance of balancing your hormones and their overall effect on your health. By leveraging the power of digital media, we seek to empower people with knowledge about remote healthcare services and enable them to make informed decisions regarding their health.

**THANK YOU**

**WE LOOK FORWARD TO COLLABORATING**
